

Comprehensive Summer Treatment Intensive

Join us for our 1st ever comprehensive Summer Treatment Intensive. Our program includes sensory motor groups incorporating the Body Activated Learning method with an option to enhance your Child's outcomes by incorporating the Tomatis Method. Multi-sensory tutoring activities tailored to your Child's areas of academic weakness. Food exploration to expand your Child's diet to include brain foods to support learning. Yoga and relaxation activities for improve self regulation, attention and focus. The program is designed to support your Child's sensory motor and physiological needs for learning and critical for brain development.
